Diagnostic Imaging and  
Interventional Radiologist

**TARGET AUDIENCE** Urologist, Radiologist, Medical Oncologist

**NEEDS ASSESSMENT** This program will provide updates in the clinical management and treatment of patients with suspected or confirmed kidney cancer. As the treatment of these patients has rapidly evolved, especially in regards to those with advanced disease, many novel options are becoming available. Effective and efficient diagnosis, management and surveillance strategies are needed to maximize survival for these patients.

**COURSE DESCRIPTION** Discussion in the management of small renal masses and the implications of ablative therapy as well as radiologic alternatives to CT scan for the diagnosis and surveillance of patients with suspected kidney cancer. Review the work up and management for patients with inferior vena cava thrombus from kidney cancer and indications for currently recommended systemic treatment options, including clinical trials for those with metastatic kidney cancer.

**LEARNING OBJECTIVES** As a result of participating in this activity, the learner will be able to:

- Identify patient ideally suited for ablative treatments for renal masses and how to follow them
- Describe the advantages and disadvantages for non-CT imaging in suspected kidney cancer, including the use of MRI, ultrasound and PET imaging
- Become familiar with the work up needed for patient with kidney tumor and thrombus and initial management
- Gain knowledge about the rapidly changing systemic treatment option for patient with metastatic kidney cancer

**COMPETENCIES** This program provides the following competencies adopted by the American Board of Medical Specialties; Patient Care and Procedural Skills, Systems-Based Practice, Medical Knowledge, Interpersonal and Communication Skills, Professionalism.

**FACULTY DISCLOSURE** USF Health adheres to ACCME Standards regarding commercial support of continuing medical education. It is the policy of USF Health that the faculty and planning committee disclose real or apparent conflicts of interest relating to the topics of this educational activity, that relevant conflict(s) of interest are resolved and also that speakers will disclose any unlabeled/ unapproved use of drug(s) or device(s) during their presentation. Faculty disclosures will be made available at the program.

**DISCLAIMER** The information provided at this CME activity is for continuing education purposes only and is not meant to substitute for the independent medical/clinical judgment of a healthcare provider relative to diagnostic and treatment options of a specific patient's medical condition.

**EEO – USF and Moffitt Cancer Center are Equal Opportunity/Affirmative Action/Equal Access Institutions.** For disability accommodations contact Gina Woodward, by email at [Gina.Woodward@Moffitt.org](mailto:Gina.Woodward@Moffitt.org), within five days of the event.

**CANCELLATION POLICY** Moffitt Cancer Center and USF Health reserve the right to cancel due to unforeseen circumstances and notification will be made by email, as available.

**ACCREDITATION**

Physicians: USF Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

USF Health designates this live activity for a maximum of 1.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

USF Health (provider number 2970) is an approved provider of continuing education for nurses through Florida Board of Nursing. This activity has been approved for 1.5 contact hours.
