MODERATOR

Jhanelle Gray, MD
Department Chair,
Program Leader & Senior Member
Thoracic Oncology

Co-Leader, Molecular Medicine Program
Senior Member, Department of Tumor Biology
Moffitt Cancer Center

Professor, Department of Oncologic Sciences
University of South Florida,
Morsani College of Medicine

SPEAKERS

Lary Robinson, MD
Senior Member,
Department of Thoracic Oncology
Cardiothoracic Surgeon

Director, Pancoast Tumor Program
Moffitt Cancer Center

Professor of Surgery
Department of Oncologic Sciences and
Department of Surgery
University of South Florida Morsani College
of Medicine

Nam Tran, MD, PhD
Associate Member, Neuro-Oncology Program
Moffitt Cancer Center

Associate Professor,
Dept of Neurosurgery, Oncologic Sciences,
PM&R, Interventional Pain
University of South Florida College
of Medicine

REGISTRATION IS REQUIRED.

TARGET AUDIENCE Thoracic Surgeons, Pulmonologists, Medical Oncologists,
Advanced Practice Professionals

NEEDS ASSESSMENT This course is an outreach to community physicians and oncologists to educate them on Lung Cancer, specifically the Pancoast tumor which is an uncommon presentation of a lung cancer located at the top of the lung that is invading the chest wall and/or vertebrae causing pain. 3-5% of lung cancer patients present with a Pancoast syndrome. Often the symptoms may be misleading and can delay a diagnosis. Many patients are under-treated and at least 50% or more are likely eligible for tri-modality, potentially curable therapy. Moffitt would like to be involved with the community physicians and oncologists in their patient's treatment and would plan to send the patient back to their primary oncologist once surgical treatment is finished.

COURSE DESCRIPTION This course is an outreach to community physicians and oncologists to educate them on Lung Cancer, specifically the Pancoast tumor which is an uncommon presentation of a lung cancer located at the top of the lung that is invading the chest wall and/or vertebrae causing pain.

LEARNING OBJECTIVES As a result of participating in this activity, the learner will be able to:

- Review the clinical presentation of Pancoast (superior sulcus) tumors of the lung.
- Identify the key diagnostic modalities and how they contribute to the staging and treatment planning for this tumor.
- Examine the clinical studies on which modern multimodality treatment is based.
- Discuss the clinical guidelines for treating various presentations of this locally advanced tumor and the expected results.

COMPETENCIES This program proves the following competencies adopted by the American Board of Medical Specialties: Patient care and procedural skills, Medical knowledge, Practice based learning and improvement, System-based practice, Provide patient-centered care, Work in interdisciplinary teams, Employ evidence-based practice, Apply quality improvement

FACULTY DISCLOSURE USF Health adheres to ACCME Standards regarding commercial support of continuing medical education. It is the policy of USF Health that the faculty and planning committee disclose real or apparent conflicts of interest relating to the topics of this educational activity, that relevant conflict(s) of interest are resolved and also that speakers will disclose any unlabeled/ unapproved use of drug(s) or device(s) during their presentation. Detailed disclosure will be made at the onset of the activity.

DISCLAIMER The information provided at this CME activity is for continuing education purposes only and is not meant to substitute for the independent medical/clinical judgment of a healthcare provider relative to diagnostic and treatment options of a specific patient's medical condition.

CANCELLATION POLICY Moffitt Cancer Center and USF Health reserve the right to cancel due to unforeseen circumstances and notification will be made by email, as available.

ACCREDITATION

Physicians: USF Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

USF Health designates this live activity for a maximum of 1.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

USF Health (provider number 2970) is an approved provider of continuing education for nurses through Florida Board of Nursing. This activity has been approved for 1.5 contact hours.
