Since 1986, the mission statement of Moffitt Cancer Center has been “To Contribute to the Prevention and Cure of Cancer.” As patients ourselves, one of the key things that we can personally attest to is their approach to patient- and family-centered care. In short, this is a partnership between you, your caregiver, and your Moffitt care team, with you as the team leader.

You can be assured that your care team will always listen to you and take into consideration all of your questions, concerns and fears you or your caregiver may have regarding your treatment options, after care, and any supportive services.

This Resource Guide for Patients and Caregivers is an invaluable tool. We firmly believe it will assist you though your Moffitt experience, with your specific clinic having additional resources.

We are honored that you are entrusting your care to Moffitt Cancer Center. Your courage and that of your family inspires us all each and every day.

Best Wishes,

Patti Halula and Shani Parkin

Former Speaker of the Florida House of Representatives, H. Lee Moffitt first conceived the idea of creating a world-renowned cancer center in the early 1980s. He was a cancer survivor himself, and when his friends had to leave Florida for treatment, he realized it was time to take action.

Today, Moffitt is one of only 51 National Cancer Institute-designated Comprehensive Cancer Centers, a distinction that recognizes Moffitt’s scientific excellence, multidisciplinary research, and robust training and education. Moffitt is a Top 10 cancer hospital and has been nationally ranked by U.S. News & World Report since 1999.
Moffitt recommends all patients and their families attend the **PATIENT AND FAMILY ORIENTATION**. The orientation is held each weekday and provides valuable tips and information on maximizing your Moffitt experience. Orientations are also provided in Spanish. Attendees receive a free messenger bag with helpful resources and organizational tools.

You have the right to make decisions about your own health. Our goal is to help you understand your current health condition and treatment options so you can make informed choices. When making your decision, please consider the following:

- How much detail do you want to know about your situation?
- How much information do you want your family to know?
- Do you want your family or a close friend to be involved in discussions and decisions about your care?

**ADVANCE DIRECTIVES/ADVANCE CARE PLANNING**

Advance care planning (ACP) is a process of understanding, reflecting on and discussing future medical preferences with your loved ones and treatment team in the event you could not speak for yourself. It is a vitally important process that helps you review and document how you want to be cared for. ACP includes:

- Understanding your health care treatment options.
- Clarifying your health care goals.
- Weighing your options about what kind of care and treatment you would or would not want.
- Making decisions about whether you want to appoint someone to speak on your behalf, if you are unable to express your wishes.
- Putting your wishes in writing.
- Communicating your wishes and sharing these documents with your family, friends, clergy, other advisers, physicians and other health care professionals.

There are two ways you can document and arrange for your health care decisions:

- **Living Will** – A Living Will provides your instructions about life-prolonging procedures should doctors determine that you have a terminal condition, an end-stage condition, or are in a persistent vegetative state.

- **Health Care Surrogate** – This document identifies the person you have chosen to act on your behalf if you are unable to make or communicate your own health care decisions. You can also choose an alternate health care surrogate.

What’s most important is that you know what you want and communicate it. You have the right to change or cancel these documents at any time. Moffitt honors advance directives in both the inpatient and outpatient settings. Your physicians and other members of your health care team are available to help you with the many health care decisions you will be making.

You and your family can also turn to Moffitt’s certified advance care planning facilitators for help. To schedule an ACP session or for more information, call 813-745-8407 or visit the Patient and Welcome Center on the second floor of the Muriel Rothman Building. Drop-ins are welcome.
ETHICAL DECISIONS
If an ethical dilemma arises during your care, you, your family members and health care providers can request a consultation. The Clinical Ethics Committee will collaborate with your doctor and health care team to provide advice and recommendations. Members are available for consultation 24 hours a day, seven days a week, at no charge. To request a consultation, call and ask the operator to contact the on-call ethics consultant.

PATIENT PRIVACY
We are committed to protecting the privacy of your health information and to abiding by federal laws that govern how your information can be used.

You will be given a “Notice of Privacy Practices” that describes how your information will be used or disclosed, and it explains your rights regarding this information. The privacy notice is also available on our website or upon request at any time. You will be asked to sign a form stating you received the notice when you arrived at the hospital.

Call 813-745-2963 or e-mail [PatientAdvisors@Moffitt.org](mailto:PatientAdvisors@Moffitt.org).

**BECOME AN ADVISOR** Partner with other advisors, health care providers and staff to raise issues, communicate concerns and help with problem solving, with the goal of improving the patient experience and our services. **VOLUNTEER** Moffitt benefits from the support of more than 700 volunteers each year. More than 300 of those volunteers rotate through the cancer center on a monthly basis, actively assisting in services areas throughout our campuses. Our summer VolunTeen program adds nearly 100 high school students from June through August. For more information, visit [Moffitt.org/Volunteer](https://www.moffitt.org/volunteer) or call 813-745-2254.

**FOSTERING A CULTURE OF DIVERSITY AND INCLUSION** We support visitation without regard to age, race, ethnicity, religion, culture, language, physical or mental disability, socioeconomic status, sex, sexual orientation, or gender identity or expression.

**SPEAK OUT FOR MOFFITT** is a coalition of volunteers who communicate the importance of Moffitt’s initiatives to elected officials. Your voice as a private citizen can make a big difference when it comes to government funding of cancer treatment, research and prevention.
